

AMENDMENTS TO THE SPECIFICATION

The following is a copy of Applicants' specification that identifies language being added with underlining (" ") and language being deleted with strikethrough (""), as is applicable.

Please make the following amendments to the specification:

In paragraph [0046]:

Further, other embodiments comprising control programs 27, 31 and ~~databases~~ databases 29, 33 can be embodied in any computer-readable medium for use by or in connection with a computer-related system (e.g., an embedded system such as a modem) or method. In this context of this document, a computer-readable medium is an electronic, magnetic, optical, semiconductor, or other physical device or means that can contain or store a computer program or data for use by or in connection with a computer-related system or method. Also, the computer program or data may be transferred to another computer-readable medium by any suitable process such as by scanning the computer-readable medium. Thus, the computer-readable medium could be paper or other suitable medium upon which the computer program can be printed, scanned with an optical scanner, and transferred into the computer's memory or storage.
